

LOPES LIVE LABS

L3'S BY COLLEGE OR DEPARTMENT

While each of our labs are open to students of any college to promote innovation and exploration in any area of interest, each of our colleges host L3's that compliment the degree programs they offer.

If you already know what GCU college you're interested in applying to, these L3's are a great place to start getting involved!

Grand Canyon University is dedicated to preparing its students for a successful career by providing a variety of learning experiences. We offer many unique opportunities with hands-on education from experienced professors that help current students gain real-world skills, making themselves more marketable to future employers.

In partnership with each of our college deans, we have developed a unique designation for this learning environment, which we call Lopes Live Labs (L3's). These applied learning labs represent on-campus locations where students can gain access to industry opportunities and experience their education coming to life.
