*“To walk the streets of Florence and tour the Roman Forum, where centuries of transformative thinkers, Renaissance artists, political masterminds and great nations walked, talked and altered human history was an unreal experience. We were witnessing the foundations of Western thought and culture by visiting such incredible cities. Additionally, being surrounded by different languages, mannerisms and foods truly immersed us all into the European experience that is so different from our own. All in all, this trip made history come alive and I am so happy that I got to see things I’ve only studied in books!”*
